

tesseract_examples
/include/tesseract_examples
/freespace_hybrid_example.h

```
graph BT; A["tesseract_examples  
/src/freespace_hybrid_example.cpp"] --> C["tesseract_examples  
/include/tesseract_examples  
/freespace_hybrid_example.h"]; B["tesseract_examples  
/src/freespace_hybrid_example_node.cpp"] --> C;
```

The diagram illustrates the relationship between three source files. At the top is a header file, 'tesseract_examples/include/tesseract_examples/freespace_hybrid_example.h', contained within a grey box. Below it are two source files, each in a white box. The left source file is 'tesseract_examples/src/freespace_hybrid_example.cpp' and the right source file is 'tesseract_examples/src/freespace_hybrid_example_node.cpp'. Both source files have a blue arrow pointing upwards to the header file, indicating that they include the header.

tesseract_examples
/src/freespace_hybrid
_example.cpp

tesseract_examples
/src/freespace_hybrid
_example_node.cpp
