_managers_serialization_unit.cpp"] --> C;
```

This diagram illustrates the relationship between three source files in the Tesseract project. At the top is a header file, `fix_state_bounds_task_generator.h`, located in the `tesseract_process_managers/include/tesseract_process_managers/task_generators` directory. Below it are two source files. The file on the left, `fix_state_bounds_task_generator.cpp`, is located in `tesseract_process_managers/src/task_generators`. The file on the right, `serialization_unit.cpp`, is located in `tesseract_process_managers/test/tesseract_process_managers`. Both source files have blue arrows pointing to the header file, indicating that they include it.

tesseract\_process\_managers  
/src/task\_generators/fix  
\_state\_bounds\_task\_generator.cpp

tesseract\_process\_managers  
/test/tesseract\_process  
\_managers\_serialization\_unit.cpp
