

tesseract\_planning  
::EnvironmentCache

```
graph BT; A[tesseract_planning::ProcessEnvironmentCache] --> B[tesseract_planning::EnvironmentCache]
```

The diagram illustrates an inheritance relationship between two classes. At the bottom is a gray-shaded box representing the base class, 'tesseract\_planning::ProcessEnvironmentCache'. A blue arrow points vertically upwards from this box to a white box above it, representing the derived class, 'tesseract\_planning::EnvironmentCache'. Both boxes have a black border and contain their respective class names in two lines.
