The diagram illustrates a dependency relationship in a C++ project. At the top, a gray box represents the header file `tesseract_motion_planners/ompl/include/tesseract_motion_planners/ompl/deserialize.h`. Below it, two white boxes represent source files. The left box, `tesseract_motion_planners/ompl/src/deserialize.cpp`, and the right box, `tesseract_motion_planners/test/serialize_test.cpp`, both have blue arrows pointing upwards to the header file, indicating that they include or depend on it.
