The diagram illustrates a dependency structure where two source files, `done_task.cpp` and `task_composer_task_plugin_factory.cpp`, both include the header file `done_task.h`. The header file is located in the `include/tesseract_task_composer/nodes/` directory, while the source files are in the `src/nodes/` and `src/task_composer_task/` directories respectively, all within the `tesseract_task_composer` project.
