

tesseract\_examples  
/include/tesseract\_examples  
/freespace\_ompl\_example.h

```
graph BT; A["tesseract_examples  
/src/freespace_ompl_example.cpp"] --> C["tesseract_examples  
/include/tesseract_examples  
/freespace_ompl_example.h"]; B["tesseract_examples  
/src/freespace_ompl_example_node.cpp"] --> C;
```

The diagram illustrates the relationship between source files and a header file. At the top is a grey box representing the header file: `tesseract_examples/include/tesseract_examples/freespace_ompl_example.h`. Below it are two white boxes representing source files. The left box is `tesseract_examples/src/freespace_ompl_example.cpp` and the right box is `tesseract_examples/src/freespace_ompl_example_node.cpp`. Blue arrows point from each source file box up to the header file box, indicating that both source files include this header.

tesseract\_examples  
/src/freespace\_ompl  
\_example.cpp
