

tesseract\_examples  
/include/tesseract\_examples  
/freespace\_hybrid\_example.h

```
graph BT; A["tesseract_examples  
/src/freespace_hybrid_example.cpp"] --> C["tesseract_examples  
/include/tesseract_examples  
/freespace_hybrid_example.h"]; B["tesseract_examples  
/src/freespace_hybrid_example_node.cpp"] --> C;
```

The diagram illustrates the relationship between three source files. At the top is a header file, 'tesseract\_examples/include/tesseract\_examples/freespace\_hybrid\_example.h', contained within a grey box. Below it are two source files: 'tesseract\_examples/src/freespace\_hybrid\_example.cpp' on the left and 'tesseract\_examples/src/freespace\_hybrid\_example\_node.cpp' on the right, both in white boxes. Two blue arrows point from the source files up to the header file, indicating that both source files include this header.

tesseract\_examples  
/src/freespace\_hybrid  
\_example.cpp

tesseract\_examples  
/src/freespace\_hybrid  
\_example\_node.cpp
