

tesseract_task_composer
/include/tesseract_task
_composer/nodes/raster_ct
_pipeline_task.h

```
graph BT; A["tesseract_task_composer  
/src/nodes/raster_ct_pipeline_task.cpp"] --> C["tesseract_task_composer  
/include/tesseract_task_composer/nodes/raster_ct_pipeline_task.h"]; B["tesseract_task_composer  
/src/task_composer_utils.cpp"] --> C;
```

The diagram illustrates the relationship between three source files in the tesseract_task_composer project. At the top, a grey box represents the header file: tesseract_task_composer/include/tesseract_task_composer/nodes/raster_ct_pipeline_task.h. Below it, two white boxes represent source files. The left box is tesseract_task_composer/src/nodes/raster_ct_pipeline_task.cpp, and the right box is tesseract_task_composer/src/task_composer_utils.cpp. Blue arrows point from each source file box to the header file box, indicating that both source files include this header.

tesseract_task_composer
/src/nodes/raster_ct_pipeline
_task.cpp

tesseract_task_composer
/src/task_composer_utils.cpp
