

tesseract_process_managers
/include/tesseract_process
_managers/task_generators
/fix_state_collision_task_generator.h

```
graph BT; A["tesseract_process_managers  
/src/task_generators/fix  
_state_collision_task_generator.cpp"] --> C["tesseract_process_managers  
/include/tesseract_process  
_managers/task_generators  
/fix_state_collision_task_generator.h"]; B["tesseract_process_managers  
/test/fix_state_collision  
_task_generator_unit.cpp"] --> C;
```

The diagram illustrates the relationship between three files in the tesseract library. At the top is a header file, 'tesseract_process_managers/include/tesseract_process_managers/task_generators/fix_state_collision_task_generator.h', which is highlighted with a gray background. Below it are two source files. The file on the left, 'tesseract_process_managers/src/task_generators/fix_state_collision_task_generator.cpp', and the file on the right, 'tesseract_process_managers/test/fix_state_collision_task_generator_unit.cpp', both have blue arrows pointing to the header file, indicating that they include it.

tesseract_process_managers
/src/task_generators/fix
_state_collision_task_generator.cpp

tesseract_process_managers
/test/fix_state_collision
_task_generator_unit.cpp
